I contenitori dialogano con i piani a forte spessore, creando composizioni fortemente articolate. Le ante sono elementi avvolgenti che esaltano la purezza dei volumi.

Storage units communicate with the thick worktops and create articulated compositions. Doors are embracing elements that highlight the neatness of volumes.

Les conteneurs communiquent avec les plateaux épais, créant des compositions très articulées. Les portes sont des éléments enveloppants qui marquent la pureté des volumes.

JER 08

JER 13

Legno e pelle caratterizzano in modo diverso i pannelli strutturali da quelli delle superfici di lavoro. Un effetto estetico e tattile prezioso e ricercato.

Wood and leather characterise the structural elements, creating a clear distinction from the working surfaces. An aesthetic and tactile effect, precious and sophisticated.

Le bois et le cuir caractérisent les panneaux structuraux différemment de ceux qui composent les surfaces de travail. Un effet esthétique et tactile précieux et sophistiqué.

JER 23

La riunione avviene in tavoli rettangolari di grandi dimensioni che esaltano la qualità estetica e tattile delle finiture selezionate. Le strutture in finitura scura sembrano scomparire per esaltare la forza espressiva dei piani.

Meetings are held around large rectangular tables that amplify the aesthetic and tactile quality of the finishes. Dark-finished frames seem to disappear to emphasise the worktops expressive strength.

La réunion se déroule autour de grandes tables rectangulaires qui soulignent la qualité esthétique et tactile des finitions sélectionnées. Les structures foncées semblent disparaître pour renforcer le pouvoir expressif des plateaux.

Una scrivania direzionale dalle forme morbide e avvolgenti con evidenti riferimenti ad un'estetica vintage. Piani con spigoli raggiati e gambe ad anello inclinato determinano composizioni fortemente caratterizzate, ideali per manager attenti al gusto e alla modernità.

An executive office desk characterised by soft and embracing shapes with a vintage aesthetic touch. Worktops with rounded corners and inclined ring legs create strongly characterised combinations, perfect for managers with good taste who love modernity.

Un fauteuil de direction avec des lignes souples et enveloppantes avec évidentes références à une esthétique « vintage ». Plateaux à bords arrondis et avec pieds inclinés qui créent des compositions hautement caractérisées, idéales pour les gérants attentifs au goût et à la modernité.

SEV 01

L'effetto complessivo di grande modernità è ottenuto unendo i piani in cristallo temperato alle gambe metalliche. Un gioco di riflessi che stravolge l'immagine stereotipata di postazione direzionale. I piani sono retro laccati nei colori bianco, nero e tortora.

The overall effect communicates a sense of modernity thanks to the combination of tempered glass worktops with metal legs. A game of reflections that reshapes the stereotyped image of executive workstations. Worktops can be back-lacquered in white, black and dove grey.

L'effet global de grande modernité est réalisé en joignant les plateaux en verre trempés au pieds en métal. Un jeu de réflexes qui supprime l'image stéréotypée de la poste directionnelle. Plateaux rétro-laqués en blanc, noir et gris tourterelle.

SEV 07

Il contromobile è un elemento prezioso per archiviare nascondendo il contenuto e per offrire una superficie di appoggio per oggetti e complementi di arredo.

The matching element is a precious place to store and hide, while providing a convenient surface to keep objects or ornaments.

Le contre-mobile est un élément précieux pour stocker le contenu caché et pour fournir une surface qui reçoit les objets et les compléments d'ameublement.

La libreria sospesa introduce un nuovo elemento compositivo che articola ulteriormente gli spazi di lavoro e di riunione. La forma rafforza l'estetica avvolgente della collezione.

The suspended bookcase introduces a new element in the composition that renovates working spaces and meeting rooms. Shapes enhance the embracing aesthetics of the entire collection.

L'étagère suspendue introduit un nouvel élément de composition qui articule ultérieurement les espaces de travail et de réunion. La forme renforce l'esthétique de la collection.

Una scrivania direzionale realizzata interamente in legno, con e senza allungo, dalle linee nette e decise.

Un avvicendamento di pannelli da 35 mm che, nei punti di giunzione, si avvicinano senza toccarsi. Un sottile taglio verticale caratterizza chiaramente il fianco.

DEL 01

La collezione si distingue per tanti piccoli dettagli. La giunzione tra piano e fianco, un' unione senza contatto visibile, valorizza lo spessore dei pannelli e li rende perfettamente leggibili.

The collection is characterised through many small details. The junction of the top with the side panel, with no visible contact between the two, highlights the panel thickness and makes them perfectly readable.

La collection se distingue dans les petits détails. La jonction entre le plateau et le côté, une union sans contact visible, souligne l'épaisseur des panneaux et les met en évidence.
